Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 12/22/08, with respect to claims 1-4 have been fully considered and are persuasive. The rejection of claims 1-4 have been withdrawn. A new rejection has been made in the following office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Hattori (US 5,136,657). Hattori teaches a helmet with a shell 1, a liner 17 with the shell 1 covering the liner which is made of a fiber reinforcement composite. The liner further includes pads 19 which are attached to the inside of the liner. The pads comprise and plurality of supports and extend towards the inner space to contact the user's head. The bottom of the helmet as shown in Fig. 1 has a slant declining forward from the back rim. The recitations "which is manufactured by a method" (lines 1-2); "using a thermoplastic resin"; (lines 3-4) ; preparing a mold...resin from the mold (lines 6-10) are purely method steps and does not provide any structure that further limit the claim. These are product by process limitation. The reference of Hattori teaches each and every structural limitation.

Allowable Subject Matter

Claim 1 is allowed.

The following is a statement of reasons for the indication of allowable subject matter: The applicant claims a method of making a helmet including a liner made of the a thermoplastic resin; covering the liner with a reinforced fiber sheet and then injecting a thermosetting resin between the liner and the molding side that is not taught in the prior art.
